NUMB. 1003.

Containing the freshest Advices, Foreign and Domestick.

By the Honourable the President and Council of the Province of Pennsylvania,

A PROCLAMATION.

WHEREAS by several Acts of Assembly of this Province, the selling of Rum to the *Indians* is prohibited under severe Penalties; and particularly by an Act of the 12th of King *William*, it is enacted as follows: 'That all Rum, Brandy, or other strong Liquors, that shall be carried, or offered to Sale or Disposal to, or at any of the *Indian* Towns or Habitations, within the Bounds of this Province, shall be forfeit, and it is hereby declared to be forfeit, one Third to the Governor, and two Thirds to such Person or Persons as shall seize the same; and all Persons (as well *Indians* as others) are thereby impower'd to seize and secure all such Rum, Brandy, and other strong Spirits, so found at any *Indian* Towns or Settlements, as aforesaid.' And by another Act, of the 8th Year of the late King George I. it is (among other Things) enacted: 'That no Person whatsoever, otherwise than is therein declared, shall sell, barter, or give to any *Indian*, or *Indians*, or to any other Person for their Use; nor by any Mean, directly or indirectly, furnish, or cause to be furnished, any *Indian* or *Indians*, with any Rum, Wine, or other strong Liquors, mixed or unmixed, under the Penalty of *Twenty Pounds* for each Offence, one Half to the Governor for Support of Government, and the other Half to the Informer, or such Person or Persons as will sue for the same.' And by another, 'That in case any Rum, or other Spirits, above the Quantity of one Gallon, be carried amongst the *Indians* at their Towns, or beyond the Christian Inhabitants, by any Person carrying the same, or he in whose Possession the same shall be found, shall forfeit and pay the Sum of *Twenty Pounds* to the Uses aforesaid.' And further, 'That no Person or Persons whatsoever, after the first Day of *August* then next following, under the Penalty of *Twenty Pounds*, for the Uses aforesaid, shall trade or traffick with any *Indian* for any Commodity whatsoever, but at their own dwelling-houses and Places of Residence with their Families, within some settled Township in this Province, without being first remitted to the Governor for his Licence, by Justices of the County Courts of Quarter-Sessions where he resides, or the next Quarter-Sessions within this Province to the Place such Residence: And that no Person shall be licensed without first giving Bond in the said Quarter-Sessions, with one or more substantial Freeholders of the same County, to be bound them in the Sum of *One Hundred Pounds*, conditioned that he will duly observe the Laws of this Province for regulating Trade with the *Indians*; which Recognizances and Licences shall be renewed annually in the Manner before directed. And 'shall further, by his Oath or Affirmation, oblige himself, that he will not directly or indirectly sell or dispose of any Rum, or other 'Spirits, mixed or unmixed, to any *Indian*.'

And whereas frequent Complaints have been made from time to time, and of late earnestly renewed, that divers gross Irregularities and Abuses have been committed in the *Indian* Countries, by Means of the great Quantities of strong Liquors which are every Year brought and sold amongst them, contrary to, and in Contempt of the said Laws; and that many of the *Indians*, by being intoxicated, and drinking to Excess of those Liquors, are not only most grossly imposed upon and cheated in their Bargains, but are also thereby enflamed to such a Degree, as actually to destroy many of their own Lives, and greatly to endanger the Lives of others; We have therefore thought fit, for the future Prevention of such Disorders, as far as in Us lies, to publish this Proclamation, strictly charging and commanding, That no Person or Persons, do hereafter presume to trade with the *Indians*, without first obtaining a Licence from the Governor or Commander in Chief for the Time being, according to the Directions given in the said Act of Assembly. And we do hereby also strictly enjoin the Magistrates of the several Counties within this Province, and especially those of the County of *Lancaster*, where these Abuses are mostly carried on, to be very vigilant and careful in the Discharge of the Duties required of them by the said Acts of Assembly; and in particular to demand such Licence of all Persons travelling with Goods to trade with the *Indians*; and to make, or cause diligent Search to be made for any Quantity of Rum, or other strong Liquors, exceeding the Quantity allowed by Law, which they shall have Reason to suspect is carrying to the *Indians*. And for the more effectual detecting and suppressing the Abuses aforesaid, We do further earnestly recommend it to the said Magistrates, to give all due Countenance and Encouragement to the Persons who shall apply, or can give Information against those who have been, or shall hereafter be guilty of carrying or vending Rum, and other strong Liquors, amongst the *Indians*, contrary to the said recited Laws, or any of them. Moreover, in as much as by the said Act of Assembly of the 12th of King *William*, all Rum, Brandy, and other Spirits, carried into any of the *Indian* Towns, are declared to be forfeit, one Third to the Governor, and the other two Thirds to the Persons seizing the same: We do hereby give full Power and Authority to any *Indian* or *Indians*, to whom Rum, or other strong Liquors, shall hereafter be offered for Sale, contrary to the said Laws, to stave and break to Pieces the Cask or Vessel in which Rum, or other strong Liquor is contained, without being accountable to Us for the Governor's third Part: And for the better Encouragement of all Persons to give Informations, and prosecute the Offenders against any of the said Laws, We do hereby further declare, that the said Informers shall have and receive to their own Use the whole Penalties and Forfeitures incurred by, and to be recovered of the Persons against whom they shall so inform, as well the Parts and Shares allotted by the said Laws to the Informer, as those given to the Governor or Commander in Chief for the Time being.

Given at Philadelphia, *under the Great Seal of the said Province, the eighteenth Day of* February, *in the Twenty-first Year of the Reign of our Sovereign Lord* George *the Second, by the Grace of God, of* Great-Britain, France *and* Ireland, *King, Defender of the Faith*, &c. Annoque Domini 1747.

ANTHONY PALMER, *President.*

By Order of the President and Council,
RICHARD PETERS Secretary.

GOD Save the KING.

A Message from the Assembly to the PRESIDENT and COUNCIL.

May it please the President and Council,

WE *should have chearfully embraced the Opportunity now offered Us of shewing our Loyalty, and the Regard we have to the King's Request, by lending him the Money mentioned in Your last Message, until Provision could be made by the Parliament for the Repayment of it, were We in Circumstances which enabled Us so to do.*

BUT the Demands upon our Treasury have of late been so many and considerable, that the Money at our Disposal hath been scarcely sufficient to pay the necessary Charges of Government; and had We a Stock sufficient in the Treasury or Loan-Office, yet as there is an Act of Assembly of the Province now in Force, which in the Absence of a Governor prohibits the passing of any Act, however great the Necessity may be, We think You must be of Our Opinion, that it would be inconvenient to apply any Part of the Publick Money to the Purposes now required of Us.

Signed by Order of the House,
JOHN KINSEY, Speaker.

Philadelphia, 11th Mo. 6. 1747.

Hague, Oct. 17. By Advices from Brussels received by a Minister of the French Party, we have learned, that since the Arrival of the King at Versailles, the Court has sent Dispatches into Switzerland, to its Minister there for him to cause 6000 Recruits immediately to be rais'd in the Cantons, in order to compleat the Regiments of that Nation, and for speedily negociating a Body of 12,000 Men, to augment the Armies of the King, as well in Italy as in the Low Countries. This is done with the

the utmoſt Sedulity and without making any Noiſe. Marſhal Saxe has received a Courier from the King, with very important Diſpatches, and which as we are aſſured from good Hands, import the Plan of two Expeditions, which are to be made at the ſame Time, the one whereof is to be a Siege of very great Conſequence.

Letters from Bruſſels of the 15th Inſtant ſay, that the Auſtrians and Piedmonteſe had block'd up the Paſſage into Italy, and were preparing to renew the Siege of Genoa, from whence there was no Account of the Duke de Richelieu's Arrival. Letters from Paris ſay, that they had received Advices from Turkey of the 8th of September laſt, which mention, that the Engliſh, ſupported by the Indians, had block'd up Pondicherry by Land as well as by Sea, and that the ſaid Place being in want of Proviſions, there was Reaſon to apprehend it could not long hold out.

Extract of a private Letter from Amſterdam, October 27.

It is very evident, that the Party which have hitherto been averſe to our coming to Extremities with France, are no longer conſiderable in this Country, ſome having changed their Sentiments from Conviction; and others being aſhamed to profeſs any longer Notions, that Experience has ſhewn to be as falſe, as they were long ago proved to be by Reaſon. But notwithſtanding this, it is apprehended that to avoid a direct Change in our Conduct, we ſhall for ſome Time, perſiſt in the Proſecution of vigorous Meaſures, without a direct Declaration; from whence we expect that ſome conſiderable Advantages will ariſe. In the firſt Place, Unanimity will be preſerved; for none can be ſo loſt to Shame and publick Spirit, as to refuſe contributing to their utmoſt, towards the Defence and Preſervation of their Country, at a Time when they cannot but ſee that it is upon the very Brink of Ruin. We are in the next Place perſuaded, that we ſhall find leſs Difficulty in hiring foreign Troops for a defenſive than an offenſive War; and it very much imports us to be ſecure in this Reſpect, let our ſubſequent Meaſures be what they will. We are laſtly inclined to think, that by this very Method we ſhall very ſpeedily come to the very ſame End, that our natural and beſt Allies propoſed, that of a Rupture with the common Enemy; and, by the Way, moſt ſuited to our Government; I mean, by engaging France to declare War againſt the Republick; which, from the Manner of her Proceedings, it is very apparent ſhe muſt do very ſoon; nay, if ſome of our Intelligences may be depended upon, ſhe is on the very Point of doing it

Paris, Oct. 27. It is looked upon as a Thing out of Queſtion that the Dauphineſs is pregnant, and it is ſaid this will be declared as ſoon as the Court returns to Verſailles. The new Tax upon Proviſion falls extreamly bad upon the Poor, and a certain great Prince who paſſes his Days in the Exerciſe of ſincere Piety, quitted his Retreat a few Days ago to lay before his Majeſty what he apprehended his Miniſters would conceal from him, the extream Diſtreſs of his Subjects. The Archbiſhop of this Capital, moved by his Example, took the Liberty alſo to join his Remonſtrances on the ſame Subject, and that with ſuch Warmth as to ſhed Tears while he was ſpeaking. It is ſaid, that his Majeſty was very much moved by theſe Aplications, and ſome faint Hopes are conceived that the Edict will be recalled, and Things left upon the ſame Foot as before it was publiſhed.

Venice, Oct. 20. The Auſtrian Army is beginning to go into Winter Quarters. The Return of the Troops into the Parmeſan and Plaiſentine will ſecure theſe Countries from the farther Incurſions of the Genoeſe, who have rais'd Contributions, and committed many exceſſes, and have carried off ſeveral of the principal Inhabitants for Hoſtages, among whom is Marquis Scotti, Brother of the Spaniſh Embaſſador.

LONDON, *October* 17.

We learn by private Letters from Genoa, that many of the Nobility become more and more deſirous of Peace, that they may be delivered from the Load of their Auxilliaries, with whom they have enough to do to agree; and on the other Hand, the French themſelves are far enough from being pleaſed with a Service, in which they are expoſed to continual Action, by which they ſuffer extreamly, as appears from the State of the Detachment lately ſent to Corſica, in which there are no more than four Officers left unwounded and fit for Duty.

They write from Milan, that vaſt Magazines are forming in the Dutchies of Parma and Placentia, and that General Brown is ſpeedily expected there with the Forces under his Command; which, with other Circumſtances, renders it highly probable, that unleſs our pacifick Negociations ſpeedily take Place, we ſhall hear of another Winter Campaign in that Country; which is rendered more probable from the Accounts we have from Turin, that the Piedmonteſe Head Quarters will be ſuddenly removed to Savona, by which Genoa will be once more in Danger.

By a Letter from Switzerland we have an Account, that there has lately been an Eſtimate made of the Number of effective Men, able to bear Arms, and diſciplined, in the Thirteen Cantons, when it appeared there were upwards of 300,000, and that two Thirds of them are Proteſtants.

We have from Breda a very curious Account of the firſt Expedition of one M. Uliat, who has lately raiſed an Independent Company, by a Commiſſion from his Serene Highneſs the Prince Stadtholder. He advanced it ſeems in the Night, between the 7th and 8th towards the Village of Stabroek, where Part of the Left Wing of the Enemy's Army had taken poſt, with no more than 20 Huſſars, and not quite a hundred Foot, he ſurprized all the Centinels and advanced Guards, and then followed by 30 choice Men, entered the Village itſelf, in which, beſides the Dragoons of Beauſobore, there was a conſiderable Body of Foot. An Officer of the Grand Guard calling to him upon his Approach, he ſaid he had an Order on the Part of the King for General Beauſobore, deſiring he might be ſhewed his Quarters, into which he entered alone, leaving his Men at the Gate. The General was aſleep, but awakened upon his coming into the Room. M. Uliat pulled out a Letter out of his Pocket, and holding it in his Hand, deſired the General would order his Servants to go out. As ſoon as they were withdrawn, he advanced to the Bed-ſide, and told the General, that he was ſorry to be the Meſſenger of ill News, but that he had a Letter de Cachet, and Orders to ſecure his Perſon. The General was very much ſurprized, and M. Uliat endeavoured to comfort him; told him, he ſuppoſed it was occaſioned by ſome Miſrepreſentations; that every Man had his Enemies, and that in a little Time he would juſtify himſelf; but for the preſent, ſaid he, I muſt take the Liberty of ſeizing theſe, and thereupon laid hold of his Sword, and a Caſe of Piſtols, deſiring him to dreſs himſelf, and to give Orders for admitting ſome of his People. The General went half naked to the Window, and made a Signal for their Admiſſion; but they were hardly in the Houſe, before they diſcovered themſelves to be no Officers of Juſtice, by laying hold of every Thing near them, particularly ſome Pieces of Silver that were looſe upon the Table. M. Uliat was then obliged to change his Conduct, and ſnatching one of the General's own Piſtols from his Breaſt, order'd him to come away as he was, and without ſpeaking a Word. His Conduct and Courage on this Occaſion, have gained the young Partizan great Applauſe.

The following ſurprizing Caſe is ſuppoſed worthy the Obſervation of the Publick, and may be a Caution to all Women how they put Pins in their Mouths. Mary Wye, a young woman, about Twenty Years of Age, living at Mr. Daintry's, a Baker, near St. Clement's Church, in the Strand, having put a large Pin into her Mouth, accidentally ſwallowed it in May, 1745; and afterwards having loſt a great deal of Blood, and being in great Danger of her Life, was Patient for two Months in the Infirmary, St. James's, where ſhe was often cupped and blooded often; and it appeared that the Pin lay about the Middle of her Ribs, by that Part being ſore and in great Pain. But being for ſome Time pretty free from Pain, ſhe returned to her Service at Mr. Daintry's, and lived there about two Years; and about the Beginning of Auguſt laſt, ſhe went to live at Mr. Acourt's, in Suffolk-Court, and on the 7th Inſtant, being in great Pain in her Breaſt, a drawing Plaiſter was applied, and the Part making a little Opening in the upper Part of her Left Breaſt, the Pin was diſcovered, which was drawn out, but without a Head. This gave her a great deal of Eaſe, but the Plaiſter being ſtill applied, about 24 Hours after the Head, with almoſt half an Inch of the Pin, was drawn out. The Pin was altogether near an Inch and a Half in Length.

Letters from Holland ſay, that People are very impatient to learn the Contents of the Sentence that is to be paſſed upon General la R----; that the Enquiries of the Council of War will be carried on with a great Deal of Strictneſs; and that the ſevereſt Examination will be made into the Buſineſs of Bergen-op-zoom in all its Branches, in order to diſcover what Truth there is in the many ſtrange Reports that have been ſpread concerning that extraordinary Affair.

Charles-Town, South-Carolina, February 2.

On the 19th ult. arrived here the Ships Diligence, Concord, and Snow Nancy, all from Liſbon; the Snow was attacked by a Spaniſh Privateer on the 15th, in the Night of the 24. but beat her off, without any other Loſs than Nancy's Foremaſt and Bowſprit, by the Privateer running foul of her.

The Cartwright Privateer, of this Port, Capt. Cleland, has taken a ſmall Schooner, of 4 Guns, and 30 Men, from Martinico, which ſailed on a Cruize the 5th ult. on the Coaſt of Cuba, and on the 24th took a large French Schooner in Ballaſt, from Cape Francois, bound to Brigt laden with Wine, Brandy and Bale Goods, from Bourdeaux to St Auguſtine, both which are ſafe arrived here.

March 15. 1747-8. NUMB. 1005.

The Pennſylvania GAZETTE.

Containing the freſheſt Advices, Foreign and Domeſtick.

By Captain Veſey, arrived at New-York, from London, we have the following Advices.

His *MAJESTY's moſt gracious SPEECH to both Houſes of Parliament, on* Thurſday, *the 12th Day of* November, 1747.

My Lords and Gentlemen,

AS one of My principal Views, in calling this Parliament, was, that I might receive the moſt clear and certain Information of the Senſe of My People, on the preſent Poſture of Affairs; I was deſirous to meet you as early as your own Convenience, as well as that of the Publick, would admit.

By the Advice of My Parliament, I enter'd into the War againſt *Spain*, in order to vindicate and ſecure the Trade and Commerce of My Subjects. By their Advice alſo, and in Conformity to My Engagements, I undertook the Support of the Empreſs Queen of *Hungary*, and of the juſt Rights of the Houſe of *Auſtria*. In Reſentment for this Conduct, ſo neceſſary for the Intereſts of My own Kingdoms, and of the ancient Allies of My Crown, *France* not only declared War againſt Me, but fomented and ſupported an unnatural Rebellion within this Kingdom. In carrying on this juſt and neceſſary War, I have found the moſt chearful and vigorous Support from My Parliament: And tho' the Succeſs has not been anſwerable to Our Wiſhes, and juſt Expectations, in the *Low-Countries*; yet it muſt be allowed, to the Honour of this Nation, that no Part of the Misfortunes can be imputed to Us.

The ſignal Succeſſes, which it has pleaſed God to grant Us at Sea, have made the Enemy feel the Weight of our naval Strength, to their great Loſs, and the real and ſolid Advantage of this Nation. This has appeared moſt remarkably in the Operations of my Fleet this laſt Year; which have tended no leſs to the Honour of the *Britiſh* Flag, than to the Reduction of the maritime Force and Commerce of *France*. The Government of the United Provinces has, once more, reſumed that Conſiſtency, which will give great Strength to the Common Cauſe; cement more firmly the Friendſhip between this Kingdom and that Republick; and be a laſting Security to Our inſeparable Intereſts. One great Effect of this happy Alteration in *Holland* has already appeared, in the vigorous Declaration lately made by the States General to the Court of *France*; and the Orders given by them, for committing Hoſtilities every where againſt the *French* King and his Subjects.

Some Overtures for a general Pacification have lately been made to Me, on the Part of *France*; and though ſome of the Terms propoſed were ſuch as could not be approved, yet as I have had no other Aim, but to bring about a ſafe and honourable Peace, I have ſhewn the utmoſt Inclinations to facilitate it, in Conjunction with My Allies; and a Congreſs is actually agreed to be held at *Aix la Chapelle*, whither the ſeveral Miniſters will ſoon repair. I hope all the Powers concerned will bring with them the ſame Diſpoſitions to effectuate this great Work, on juſt and reaſonable Conditions, which I ſincerely have.

In this Situation I am confident you will agree in Opinion with Me, that it is neceſſary to be vigilant and attentive to every Event; and that there can be no Reaſon to expect a good Peace, but by being timely prepared to carry on a vigorous and effectual War. I therefore rely on your hearty and powerful Support, to enable Me to proſecute the War, in caſe the Obſtinacy of Our Enemies, in not agreeing to juſt and reaſonable Terms of Accommodation, ſhould render it unavoidable. For this Purpoſe, I am now actually concerting the neceſſary Meaſures with My Allies; whoſe Intereſts I am determined to adhere to and ſupport. Let Us be in Readineſs, in caſe the Negotiations ſhould fail of the deſired Effect, to convince Our Enemies, how much they are miſtaken, if they vainly imagine that *Great-Britain*, and her Allies, will ſubmit to receive the Law from any Power whatſoever; and demonſtrate to the World, that We will decline no Difficulty or Hazard for the Preſervation of the Common Liberty, and Our own Independency, and eſſential Intereſts.

Gentlemen of the Houſe of Commons,

The Neceſſity of adequate Supplies appears from what has been already mentioned. The proper Eſtimates for the Services of the enſuing Year ſhall be laid before you; and I deſire you to grant Me ſuch Supplies, as your own Security, and laſting Welfare, and the preſent critical and important Situation of Affairs, require. You may depend on their being applied only to the Purpoſes for which they ſhall be given; and if, by the falling out of Events, any Saving can be made, it ſhall be duly accounted for.

My Lords and Gentlemen,

If any farther Proviſions ſhall be found expedient, to render more effectual the good Laws lately made for the Security of the preſent Eſtabliſhment, extinguiſhing the Spirit of Rebellion, and for the better civilizing, improving, and reducing into Order, any Part of the United Kingdom, I depend on your known Affection to Me, and to your Country, ſeriouſly and early to ſet about ſo good a Work. I will only add, that there never was a Conjuncture, in which Unanimity, Firmneſs, and Diſpatch, were more neceſſary for the Safety, Honour, and true Intereſt, of *Great-Britain*.

The Humble ADDRESS of the Right Honourable the Lords Spiritual and Temporal in Parliament aſſembled,

Die Jovis, 12° Novembris, 1747.

Moſt Gracious Sovereign,

WE, Your Majeſty's moſt dutiful and loyal Subjects, the Lords Spiritual and Temporal in Parliament aſſembled, beg Leave to return Your Majeſty our humble Thanks for your moſt gracious Speech from the Throne.

The generous and publick-ſpirited Views, with which Your Majeſty entered into this juſt and neceſſary War, are evident to the whole World; and Your People have been the more ſtrongly animated to ſupport it, by the Part Your Enemies have taken, not only to overturn the Liberties of *Europe* in general, but to diſturb Your Majeſty's Government, the ſolid Foundation of our Happineſs. The Events of War are always uncertain; but at the ſame Time that we ſee, with the greateſt Concern, the Misfortunes which have happened in the *Low Countries*, we gratefully acknowledge Your Majeſty's Goodneſs and Juſtice, in vindicating the Honour of this Nation, from any Imputation ariſing from thence.

With unfeigned Joy we congratulate Your Majeſty on the ſignal Succeſſes, with which it has pleaſed God to bleſs your Arms by Sea. No Loſs can be more ſenſibly felt by Your Enemies, and no Advantage tend more to the Glory and real Benefit of Your Kingdoms, whoſe Commerce and Naval Strength muſt be increaſed in Proportion, as that of *France* is diminiſhed.

We cannot approach Your Royal Perſon on this Occaſion, without expreſſing our higheſt Satisfaction in thoſe Events, which have happened in *Holland*, in Favour of a Prince allied to Your Majeſty by the neareſt Ties; deſcended from an Illuſtrious Houſe, in which the Defence of publick Liberty has been Hereditary, and which has produced Deliverers of this Country, as well as of that Proteſtant Republick. From this happy Alteration, we cannot but promiſe ourſelves the ſtricteſt Union of Councils between Your Majeſty and the States General; and an additional Strength in purſuing ſuch Meaſures, as ſhall be moſt conducive to the common Good of both Nations; of which we conſider the ſeaſonable Declaration lately made by the States to the Court of *France*, and the Orders given thereupon, as a ſtrong Indication.

Your Majeſty's Paternal Concern for Your People appears in nothing more, than in Your ſincere Deſire to bring about, in Conjunction with your Allies, an honourable Peace, on juſt and reaſonable Terms. At the ſame Time that we offer our humble Thanks to your Majeſty, for this gracious Diſpoſition to procure Eaſe and Repoſe to your Subjects, by effectuating this great Work, permit us to aſſure You, that we are convinced by paſt Experience, as well as by Your Majeſty's prudent Declaration, that the only Way to procure a good Peace, is to be prepared to carry on a vigorous and effectual War. For this Reaſon, we cannot but gratefully acknowledge Your Majeſty's Vigilance and Care to enter into a timely Concert with Your Allies, in order to be in Readineſs for that Event.

We beg Leave, from the Bottom of our Hearts, to give Your Majeſty the ſtrongeſt Aſſurances

Best possible image.

Assurances of our inviolable Fidelity and Affection to Your Sacred Person, Family, and Government; and that we will heartily and chearfully concur to enable Your Majesty to prosecute the War with Vigour, in case the Obstinacy of Your Enemies should render it necessary; no Difficulty or Hazard being capable of lessening our Zeal and Steadiness for the Maintenance of the Honour of Your Crown, the Independency and essential Interests of Your Kingdoms, and for the Defence of Your Allies.

We will not fail to take into our serious Consideration, what further Provisions may be expedient for better securing the present happy Establishment, extinguishing the Spirit of Rebellion, and for reforming and reducing into Order such Parts of the United Kingdom, where the Want of Improvement, Knowledge, and due Obedience to the Laws, has remarkably furnished Opportunities to seduce the People from their Loyalty. The Stability of Your Majesty's Throne, the Glory and Tranquillity of Your Reign, and the Prosperity of our Fellow Subjects, we have entirely at Heart; and our utmost Firmness, Resolution, and Dispatch, shall be exerted to attain those desirable Ends, which Your Majesty has so wisely and graciously recommended to us.

His MAJESTY's most gracious Answer.

My LORDS,

NOthing could give Me greater Satisfaction than this dutiful and affectionate Address. I heartily thank you for it; and do not doubt, but the becoming Zeal you have unanimously expressed, and your ready Concurrence in my Sentiments, will have a very good Effect, both with Our Friends and Enemies; and strengthen My Hands to pursue such Measures, either of Peace or War, as shall be most conducive to the Interests of My Kingdoms, and the Support of My Allies.

An Extract of a Letter from the Hague, dated November 3.

'There are some People here who continue loudly to cry up the pacifick Dispositions of the French King, and who endeavour to demonstrate that they are sincere, and that this Prince is weary of the War: This may possibly be the Case, but there are many others who don't believe a Word of it, because they know that his Generals and his Ministers, who increase their Wealth and Power by a Continuance of it, have not yet spilt Blood, nor laid waste Countries enough. The Government here seem to think with these last, and are therefore taking vigorous Resolutions; but every Thing is yet executed with excessive Slowness, and the salutary Councils of the Stadholder are so often traversed by bad Subjects, who look upon themselves to be in a desperate Way, in having no longer the Management of certain Affairs, that every thing goes on in a crossgrained Manner. So that those who wish well to their Country, are afraid, that with the best Intentions in the World, and the Millions with which the fiftieth Penny will fill the Treasury, we shall as usual be too late in the Field next Spring; and that after the two vigilant Counts Saxe and Lowendahl shall have given some Blow, the Government will perhaps about the middle of November send People to raise new Regiments, or to negociate them. In these Cases when will they be complete, or when be able to arrive at the Place where they are wanted. Thus talk the true Patriots.

It's generally believed that his Britannick Majesty, their High Mightinesses, and the King of Sardinia, are desirous of Peace; but no Body thinks the same of the Court of Vienna. The Answer which the Empress-Queen has just given to the Proposition of the Overture of a Congress at Aix la Chapelle, being so loose and indefinite, that it determines nothing. Reflections are made too upon the Circumstance of the the Choice of this same City of Aix, to be the General Quarters of the Austrian Commander, who we are told will place a Garrison there of three Battalions, which by no Means seems to agree with the Assembly of a Congress, but quite contrary. For if that Place had been actually fixed on for the Ministers of the Powers in War to meet at, Count Bathiani would probably have established his Quarters at Limbourgh.'

LONDON.

October 29. We hear that the Prize Money of every Foremast Man in the Fleet, under the Command of Rear Admiral Hawke, who were in the late Engagement with the French, will amount to 60 l. a Man.

There is an Account from Paris, that the Court had received Advice, that Admiral Byng Commander of the British Squadron in the Mediterranean, had lately taken several French Ships, laden with Provisions, bound to Nice.

October 31. A Courier has passed through the Hague, dispatched from London to Petersburgh, whither he carries the Ratification of the Subsidy Treaty concluded with Russia for 30,000 Men for the Service of the Maritime Powers. And after M. de Swart shall have signed this Treaty, in Quality of Minister Plenipotentiary from the States General, at the Court of Petersburgh, they expect to hear of some Day being fixed for the March of those Troops; which are to consist of 15,000 Foot, 10,000 Horse, and 5000 Cossacks and Calmucks.

We hear that the Republick of Holland will take a great many of the Scotch into their Pay, and that they intend to have an Highland Regiment, which is to be cloathed in the Highland Dress.

We hear that Admiral Boscawen has the Command as a Major General of the Land Forces that go on board his Fleet; and it is said that Orders are sent down to Portsmouth, for a Court Martial to be immediately held for the Trial of Capt. F——.

Letters from Franckfort advise, that several Prussian Officers are arrived there, and in Places adjacent, to raise Recruits; the King their Master having given a strict Charge, that there be not a Man wanting by New-Year's Day in any of the Regiments in Prussia, Pomerania, and the Marche of Brandenburgh.

Nov. 3. Yesterday Morning the agreeable News came that his Majesty's Ship the Suffolk, Capt. Pratten, which has been so long missing, was arrived at Spithead with the following Ships under her Convoy, viz. The Bedford, Jubber, from Barbados. The Vernon, Manly, from Barbados. The Peggy and Jenny, Long, from Antigua. The Litchfield, Maitland, from Antigua. The Queen of Hungary, Maynard, from Nevis, And the Rowland, Keddall, from St, Kitts.

Extract of a Letter from Jersey, Oct. 26

'A Boat from St. Maloes brings Advice, that seven Privateers, of 30 and 40 Guns, sailed from thence the 18th Inst. with an Intent to Cruize in Company, and wait for our American Traders, &c. And also that two others of 50 Guns were to put Sea in a Day or two.'

Yesterday came Advice, that the Hardwick, Capt.——has taken and brought into Plymouth, the Queen of St. Malocs Privateer——She was formerly His Majesty's Sloop the Hornet, that some time since fell into the Hands of the French, together with a Ship laden with Stores.

By the Hornet there is an Account that the Amazon Man of War is taken in the Channel by two Privateers of great Force.

Thursday the London and Sommerset Indiamen, sailed from Plymouth for the Downs, under Convoy of the Chesterfield Man of War.

On Saturday an Order for 500l. clear of all Fees and Deductions, was sent by his Majesty to the Treasury to be paid to Capt. Moore for bringing the good News of the late Victory at Sea over the French Fleet, obtained by the Ships under the Command of Admiral Hawke.

And we hear he will have the Command of the Kent, and be appointed Commodore on an Expedition of great Importance.

On Sunday last Admiral Boscawen, with the Ships and East India Men under his Command was under Sail with the Wind at North.

They write from Portsmouth, that two Privateers of St. Maloes were taken and brought into that Port.

Extract of a Letter from Gosport, Nov. 2.

'On Thursday Afternoon arrived at Spithead, and came into the Harbour directly, the six Men of War taken by Admiral Hawke; one of them going up the Harbour, got on Shore off Borough Castle, but it being muddy she will not receive any considerable Damage, being shoared up; but she must remain to the next Spring Tide. Admiral Hawke came with with him the Defiance, Tilbury, Yarmouth and Lion Men of War.'

Nov. 5. Yesterday came Advice, that the Montrose, Gregory, from St. Kitts, and the Prince George, Narine, both from Antigua, are arrived in the Downs; and the Elizabeth Reisley, from Antigua, is arrived in Ireland, being all missing Ships; so that it's compute there are not above six or seven wanting of the Convoy from the Leward Islands and Barbados.

Yesterday came an Account that the Royal Hunter Privateer of Bristol, formerly a French Privateer that carried the Pretender over to Scotland, and afterwards taken, was lost in Bristol Channel; about 110 of the Men perished, and only 28 of the Crew were saved.

A Dutch Ship from Lisbon bound for Cork in her Passage was taken by the Algerines after a smart Engagement of several Hours, in which the Captain and several of the Crew were killed.

We hear that the Centurion, Capt. Dent from Lisbon, very fortunately fell in with a great many of the scattered French Fleet, and by having three India Ships in his Company took seven of them.

WILLIAMSBURGH, February 2.

By Captain Lloyd, lately arrived at Norfolk, from Jamaica, we have an Account, that Don Pedro is fitting out at the Havanna 25 Sail of Vessels, which he intends to accompany in his own Ship of 32 Guns, to cruize on this Coast; and that they are all to be double manned and propose to be at Cape Henry by the last of March. Don Pedro is so industrious in fitting out his Fleet, that he visits his Workmen every Day, and oversees the Whole.

PHILADELPHIA, March 15.

By a private Letter from New-York we learn, that there is Advice by Capt. Vesey of the Scarborough Man of War's being put into Limerick in Ireland to refit, having had two Engagements on her Passage Home; one with a Privateer of 36 Guns, and 300 Men, which he fought for Ten Hours; the other with a Privateer of 32 Guns, which 'tis said she could have taken, had not Lady Warren been on board; who had a great deal of Respect shewn her in Limerick, and was received on Shore by a Regiment of Horse: That Captain Meinard, from London for this Place, is taken by a French Privateer: And that Capt. Smyter, likewise designed for this Place, had put back to Plymouth, having sprung a Leak at Sea. We learn further from New-York, that Capt. Gill, of that Port, is taken on his Passage to London from Antigua; and that Capt. Richards, also of that Place, bound to Leghorn, is likewise taken.

Last Week arrived here the Brigt. Richa, Capt. Burk, from London, but last from Providence.

Captain Robeson from Bermuda informs us, that one of the French Fleet was carried in there by one of their Privateers.

Sunday last arrived here the Prize Brigt. Three Friends: She was bound to Maracaibo from the Havanna, had the Governor of the first mentioned Place on board, and was taken the 17th of January last by the Privateer Pandour, Captain Dowell, of this Place, in Company with the Revenge Privateer of St. Kitts; but before the Prize struck, the Dragon, of New-York, hove in Sight, so comes in for a Share. They took out of her Money, and other Things of Value, to the Amount of about Nine Thousand Pounds this Currency; and the Vessel, with what she has on board, is supposed to be worth Six Thousand Pounds more. The Pandour and Revenge are gone to cruize for a Ship they had Information of from the Prisoners, bound to Coracoa from the Havanna, that had a great Quantity of Money on board.

Captain Stamper, of this Place, from Lisbon, is in the River.
